

## EXPERIENCE

---

### Software Developer | CMARIX, Ahmedabad

**Oct 2024 – Present**

Technologies: React, Next, RTK, Typescript, Tailwind CSS,

- Developed and optimized scalable, responsive web applications using React, Typescript, Tailwind CSS, and HTML, including designing and seamless API integrations for data handling and real-time communication
- Collaborated with cross-functional teams to deliver features on time while maintaining code quality and scalability.
- Improved application performance and Lighthouse scores by optimizing rendering, state management, and code splitting.

### Software Developer | Agrovikas Agritech PVT LTD., Gandhinagar

**May 2023 -Sep 2024**

Technologies: React, Typescript, Tailwind CSS, Node.js, Express.js, Mongo DB,

- Developed and optimized scalable, responsive web applications using React, Typescript, Tailwind CSS, and HTML, including designing and building a CRM platform with an integrated dialer and seamless API integrations for data handling and real-time communication.
- Integrated Web Sockets and APIs to enable live reporting for customer service representatives and real-time calling features, enhancing performance and user experience.

### Software Developer | Avanzar solution, Ahmedabad

**May 2022 – May 2023**

Technologies: HTML, CSS, JavaScript, React, Redux-saga,

- Developed and maintained scalable web applications using React, HTML, CSS, and JavaScript, implementing high-order components to reduce repetitive code and API integrations for seamless client-server communication.
- Collaborated with cross-functional teams, including QA engineers and clients, to ensure bug-free releases, deliver tailored solutions, and improve team efficiency through code reviews, Trello-based task management, and clear communication. Managed tasks and source code efficiently using tools like Jira and Bit bucket, contributing to requirement gathering, documentation, unit testing, and successful project delivery

## AREA OF PRACTICE

---

Experienced and self-motivated software developer with over 3+ years of expertise in designing, testing, and maintaining innovative web applications. Proficient in modern front-end technologies, including React, Redux (Redux-Saga, Redux Toolkit), and Tailwind CSS, with strong experience in version control tools like Github and Bit bucket. Skilled in building responsive and user-friendly interfaces using React-Bootstrap, Bootstrap, HTML, CSS, and JavaScript, with a solid understanding of Typescript, JSON, and Agile tools such as JIRA.

## PROJECT

---

### CRM System (MERN Developer – Freelancer)

Technologies: React, Typescript, Tailwind CSS, Node.js, Express.js, Mongo DB,

- Developed and maintained backend APIs for a CRM system tailored to client needs.
- Implemented robust role-based access control (RBAC) to manage permissions for different user roles.
- Designed and integrated user authentication using JWT, ensuring secure access to resources.
- Built scalable CRUD APIs for managing customers, tags, sub-tags, and activities.
- Structured backend code for modularity and maintainability using MVC architecture.

## EDUCATION

---

|                                                                      |      |
|----------------------------------------------------------------------|------|
| Bachelor of Computer Application, JG College of Computer Application | 2022 |
| Higher Secondary (HSC), Seth shri I.N Patel Swaminarayan             | 2019 |
| Secondary School (SSC), Rachana high school                          | 2017 |

## TECHNICAL SKILLS

---

**Programming Languages** React js, Node js, Express,

**Databases** MySQL, Mongo DB

**AI Tools** Copilot, Cursor, ChatGPT,

**Others** Git, Jira, Trello,
